

Platinum 3

The Jamesway Benchmark Product for Hatchery Excellence.

Hatchery Excellence

Platinum 3

Experience incredible hatch results and industry leading energy efficiency in an incubation system designed for ease of operation and maintenance.

The combined knowledge of two hatchery industry giants, **Jamesway** and **Chick Master**, have produced the benchmark product for Hatchery excellence.

Hatchery excellence. Made easy.

Products: Platinum 3

P Series:

Enhanced Features for Improved Performance.

Fully Sealed Cabinet

The Platinum 3 features fully sealed cabinets with no external belts or pulleys, ensuring precise CO₂ level control. Set your program and enjoy peace of mind with reliable, accurate performance.

360: Easy Hatchery Management

360 provides immediate insight into the performance of your incubators and hatchery systems.

On Trolley Turning

Our signature pneumatic turning is active on each trolley to ensure a consistent turning angle for every tray.

Higher Heat Loads

Increased cooling coil surface area for a more responsive temperature control.

Environmental Control

The removable small fan unit ensures thorough sanitation while delivering excellent, uniform airflow. These compact fans offer industry-leading energy efficiency, enhancing overall environmental control.

Easy Programming

Large 12" color HMI screen and intuitive interface.

193,000+ Eggs

The P Series offers one of the largest capacities available, holding over 193,000 eggs across 36 racks, to enhance efficiency in high-volume hatcheries. Designed for demanding workloads, the P Series ensures reliable performance with ease.

Larger cooling coil surface for better temperature control.

Easy front-access maintenance with no need to access the roof.

Removable small fans ensure sanitation, uniform airflow, and energy efficiency.

The Platinum 3's fully sealed cabinets ensure precise CO₂ control, delivering reliable, accurate performance with a set-and-forget design.
